

Thank you so much for being  
and doing what you do. This  
could have been a much  
different situation had you  
not come. My husband's  
name is Bob. He had a  
severe respiratory reaction  
a couple months ago. It  
brought a whole new scary  
meaning to the word scary.  
He is doing much better  
and is rising oxygen every  
night and quit smoking.

Thank you again!
